E-Pest Surveillance & Pest Management

Department of Agriculture and Farmers' Empowerment

Emergency App - Manual

Steps for Emergency App:

- ➢ Visit the URL: "epestodisha.nic.in/emergencyApp" using the Google Chrome browser.
- ➢ There are two sections i.e. 'Farmer Details' and 'Capture Photo'.
- ➢ An OTP (One time password) based authentication is provided for the Pest details entry.
- ➢ A valid Farmer ID, Aadhaar No., Voter ID No. and a valid Mobile Number (in working condition as OTP will be sent to this number) are mandatory.

Step-by-step Explanation with Screenshots:

- ➢ Use of smart-phone is mandatory and the recommended browser is 'Google Chrome'.
- ➢ Open the Google Chrome browser and visit the link: "epestodisha.nic.in/emergencyApp".
- ➢ A valid Farmer ID, Aadhaar No., Voter ID No. and a valid Mobile Number (in working condition as OTP will be sent to this number) are mandatory.
- ➢ After entering all the valid details, click on the 'Proceed' button. (If the details are incorrect, then a message will be shown regarding the same.)

➢ An OTP (One time password) will be sent to the mobile number entered. On receiving the OTP in the mobile, please enter the same carefully in the 'OTP field' and click on 'Verify OTP' button to proceed to next section. (If the entered OTP is incorrect, then a message will be displayed regarding the same.)

➢ In case the OTP is not sent to the entered mobile number, please click on the 'Resend OTP' button to receive the OTP again.

- The user is now redirected to 'Capture Photo' section.
- Here 'Crop category' and 'Crop' are selected. In order to capture 'Fixed Land Photo', '1st Random Land Photo' & '2nd Random Land Photo', the camera icon is to be clicked to capture the photo. Please allow the confirmation asked by the browser for GPS location.
- In case a wrong photo is captured, the user can click on the Re-Capture button to capture the correct photo again.
- Click on the submit button to complete the process.
